Examinations and Academic Branch

Deputy Medical Officer, Base Hospital/ Direct Hospital  
Deputy Director, General Hospital

Dear Sir/ Madam,

**Medical Examination for University Studies**

A complete medical examination with basic investigation is mandatory for all new entrants seeking admission to Rajarata University of Sri Lanka. However, with the very large number of students now seeking entry, it is an impossible task to complete these examinations at the University Health Center before they are admitted to the University.

Moreover, once admitted, there is very poor student response for routine medical examinations.

The need for medical examination before admission has been found to be more important since several students with major handicaps have been discovered long after entry to the University.

Therefore, I am compelled to seek your kind assistance in this matter. Every student will be advised to report to the nearest District/ Base/ Provincial Hospital for this medical examination.

Please be so good as to complete the attached form and send it under confidential cover to the following address, on or before .....

Chief Medical Officer,  
Medical Centre  
Rajarata University of Sri Lanka  
Mihintale

Thanking you for your kind corporation.

S. Aruna Indika Somarathna  
Senior Asst. Registrar/ Examinations & Academic  
For Registrar
