

## **ECLIPSE Project of Department of Community Medicine Call for Proposals: Rapid Evaluation of Disease Awareness in Anuradhapura, Sri Lanka**

ECLIPSE (E\_mpowering people with C\_utaneous L\_eishmaniasis: I\_ntervention P\_rogramme to improve patient J\_ourney and reduce S\_tigma through community E\_ducation) is a multi-country global health project aimed to provide services to deprived communities with cutaneous leishmaniasis (CL).

ECLIPSE Sri Lanka invites proposals for a rapid evaluation of awareness of cutaneous leishmaniasis (CL) in three selected communities in Anuradhapura.

### **Essentials:**

**Focus:**Rapid community-based assessment of disease awareness.

**Eligibility:**10+ years of public health research experience in Anuradhapura or similar rural area  
10+ years of experience on field work preferably with community engagement  
Representing a registered organization with track records on energetic work force

### **Submission Requirements:**

1-2 page expression of interest (EOI) including,  
organization details  
contact information  
a brief description of organization's strength  
proposed rapid assessment methodology  
preliminary budget

**Process:** Collaborate with the project lead post-selection for a detailed proposal.

### **How to Apply:**

Submit your EOI via email to [eclipseofficesl@gmail.com](mailto:eclipseofficesl@gmail.com) with "Rapid Evaluation EOI" as the subject, by 4<sup>th</sup> April 2024.

This rapid evaluation is a critical step towards empowering communities against cutaneous leishmaniasis. We look forward to your innovative approaches.
